Workshop Organisers

Robert Stevens (School of Computer Science, University of Manchester, UK)

Robin McEntire (GlaxoSmithKline, King of Prussia, USA)

Phillip Lord (School of Computer Science, University of Manchester, UK)\*

James.A.Butler (GlaxoSmithKline, King of Prussia, USA)

\*Current address: School of Computing Science, University of Newcastle, UK

The Bio-Ontologies workshop has been a satellite meeting to the annual ISMB conference since 1998, and is now operated as a Special Interest Group at the ISMB Conference. Bio-Ontologies is well established as one of the key meetings for dissemination of latest information and research on ontologies in the life sciences and regularly draws many researchers in the field.
